Yokugu : The game.

2nd Edition (4 May 2021)

Computer
Engineering
Essentials

2020/2 Group 1

What on earth is Yokugu ?

Yokugu is a **word scrambling** game inspired by Hangman.

“ With suicidal concerns,
we used a beautiful
progress bar instead of a
hanged person! ”

- Game Dev 2021, Probably

Creating Room : Introduction

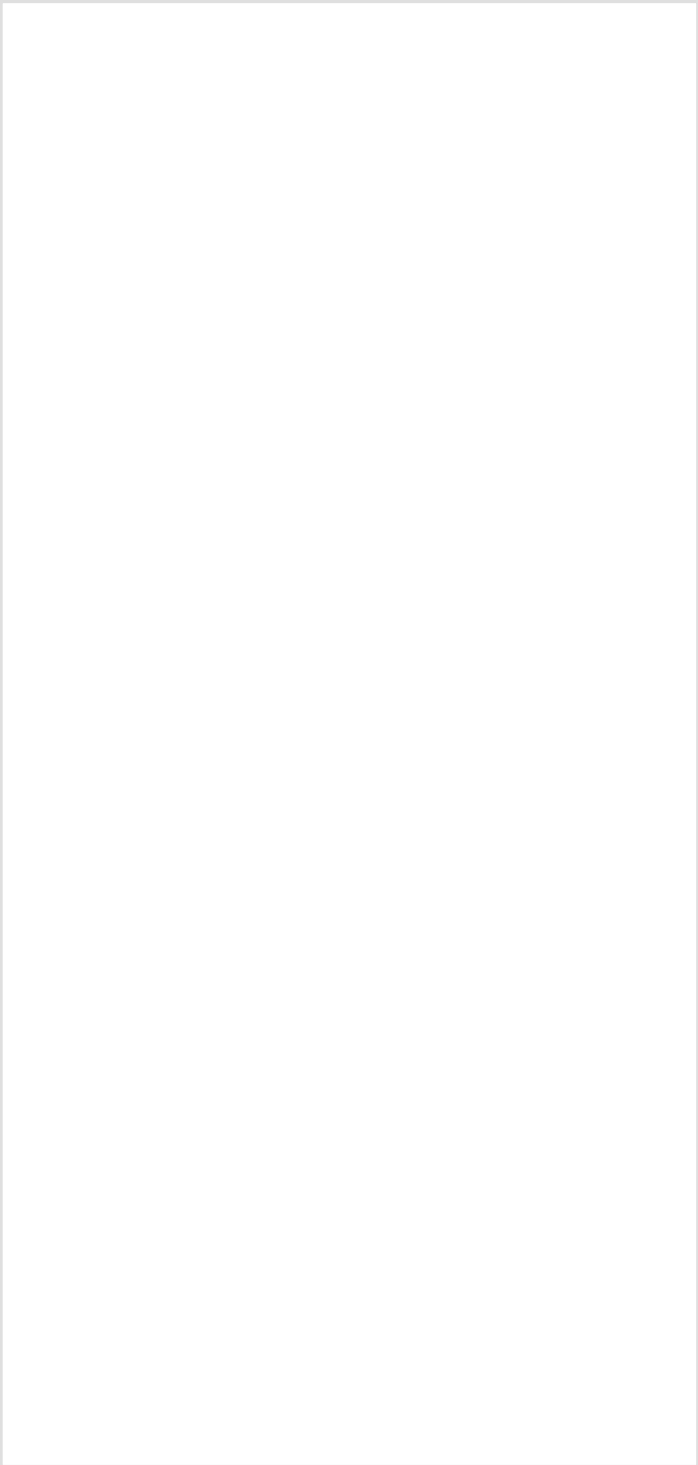

You CANNOT create a room without typing your name.

It shouldn't take too long if nothing's wrong...

CONTACT US!!

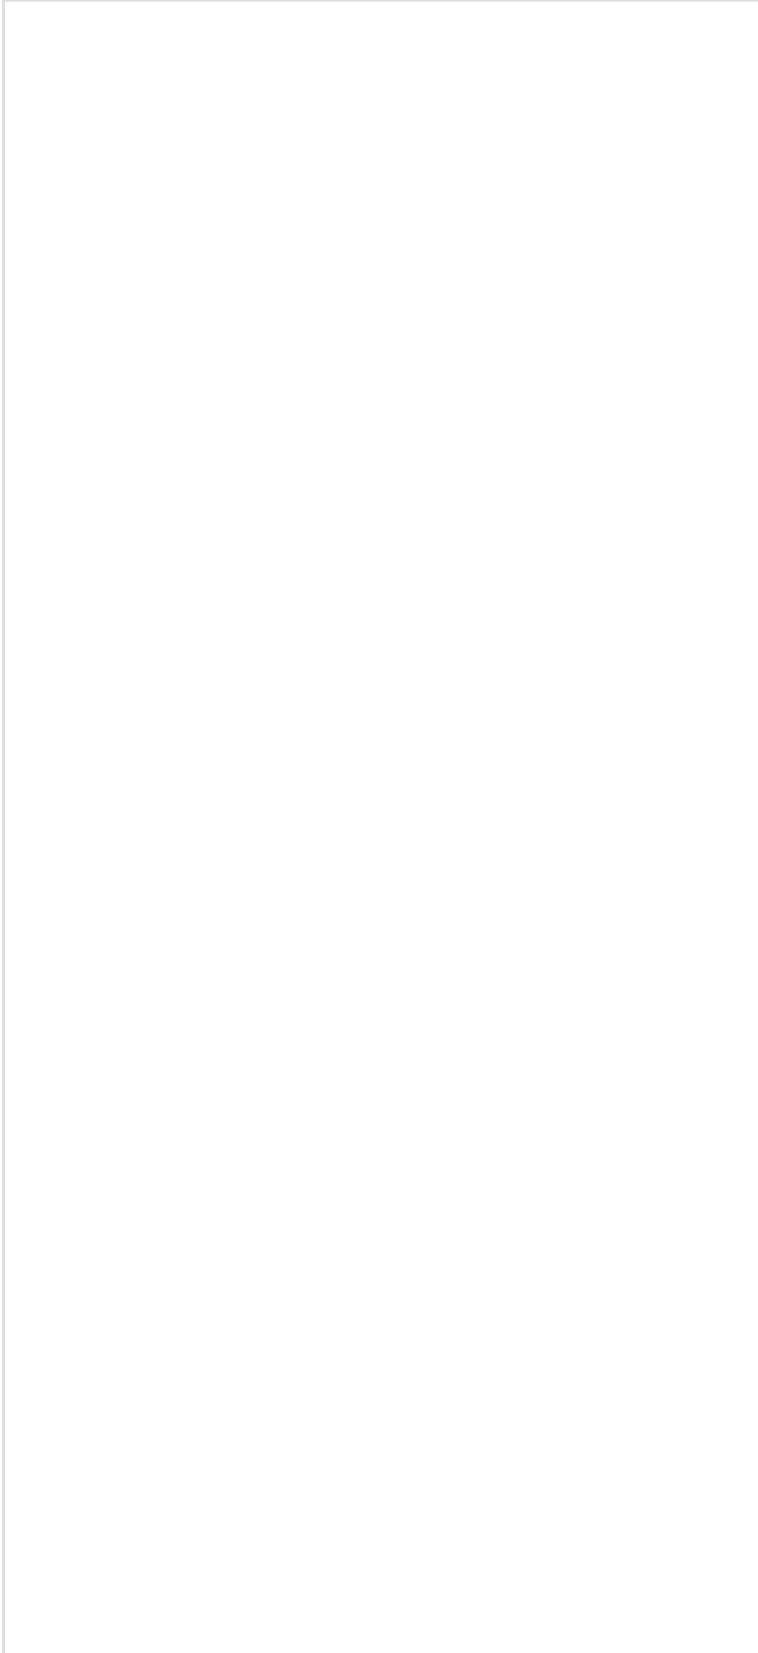

Creating Room :

Selecting Room Type

You can pick your own words to play, or use our presets!

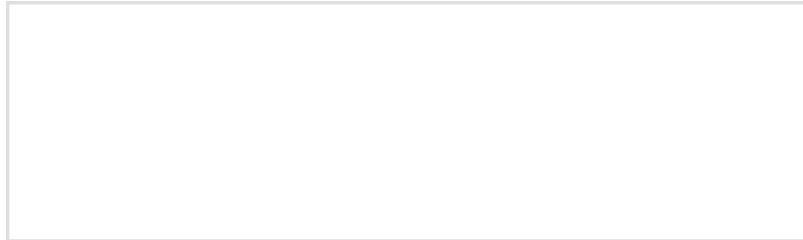

Room Type : Pick Categories (I)

You can pick any categories.

When category is selected, it turns green.

Room Type : **Pick Categories (II)**

Control Buttons at the bottom of the page.

Randomly selects 3 categories

Clear all selections

Proceed to next page

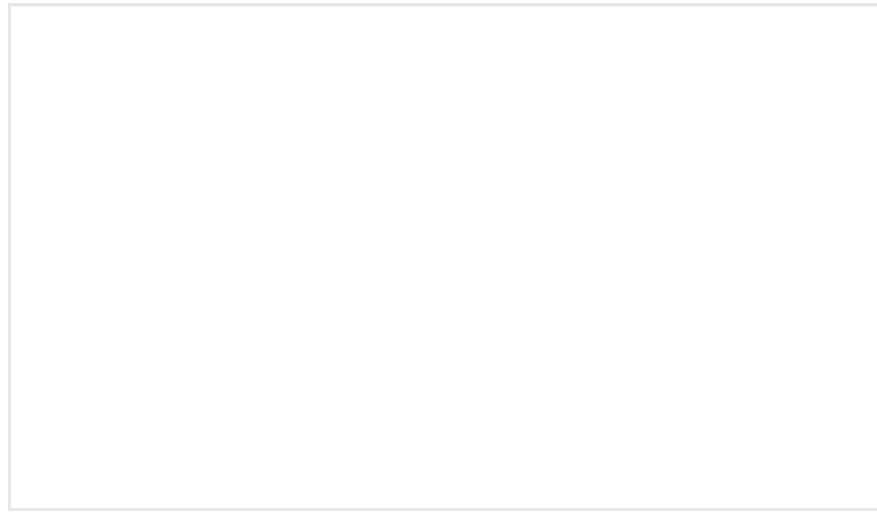

Room Type : Custom Words (I)

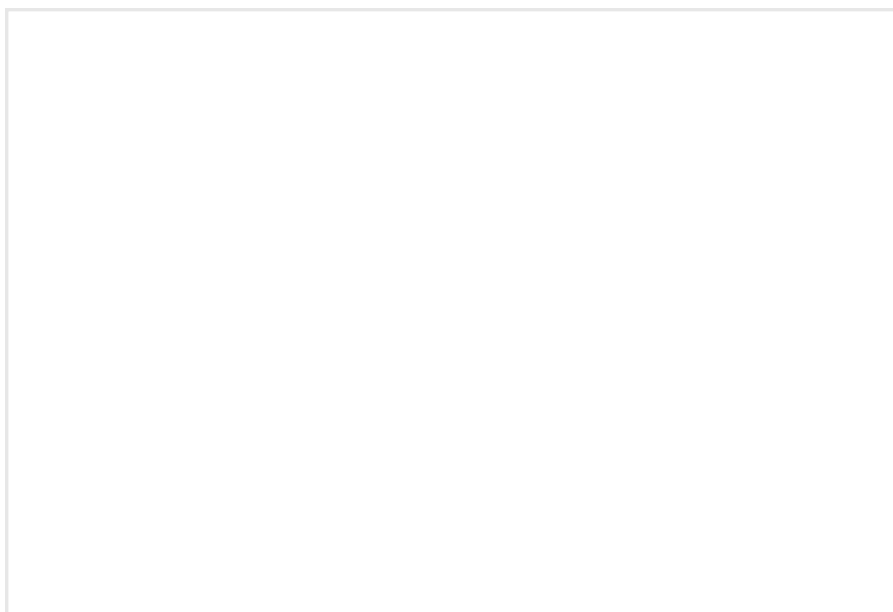

You can add your own words, one by one.

By clicking
The system will
“check” if that word
is available to use.

Room Type : Custom Words (II)

If the word doesn't exist in our database, it has to use external api to search for its definition and will take longer time to validate.

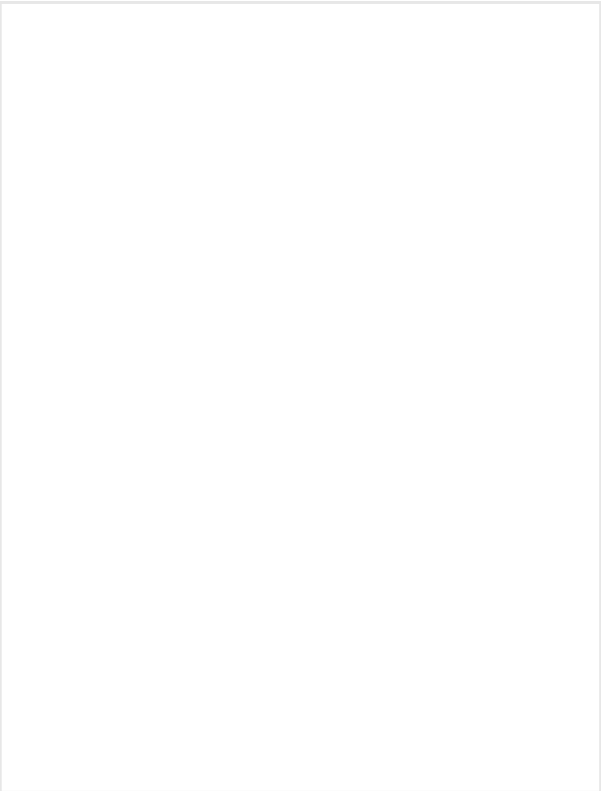

You can only use an English word!

Room Type : Custom Words (III)

If the status says
Your word
will be added to
this section.

Changed your mind?

Remove the
unwanted word by
clicking .

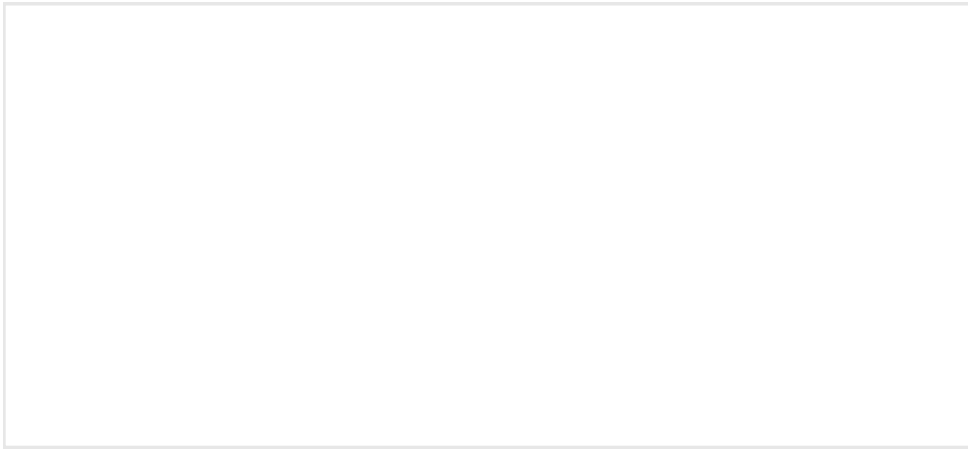

Then click to proceed to the next page.

Waiting Room

If you are a leader (room creator), you will have the Start Gamebutton.

You can either solo or play with your friends by copying the room code above

Joining Room (I)

If your friend has created a room, you can use the code to join room from the “Home” page.

Joining Room (II)

If the game hasn't started, you will be redirected to the waiting room.

Joining Room (III)

But if the leader
has pressed “start”,
you will be sent
to the game!

Gameplay (I)

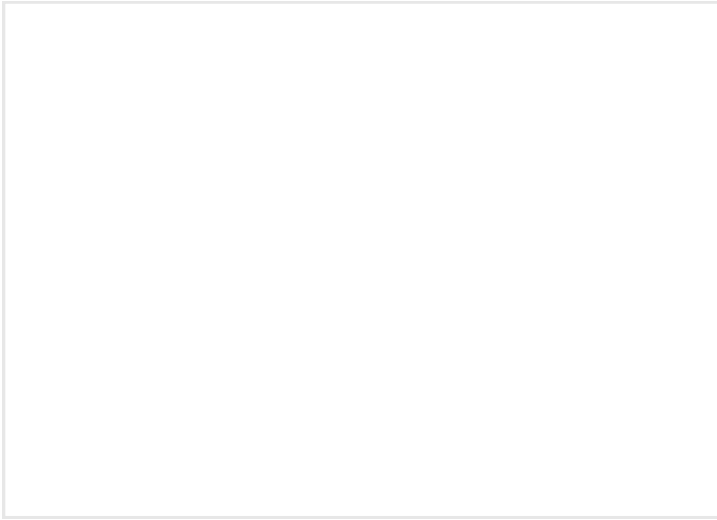

You are to “guess”
a letter by typing in
and press “submit”.

PC Master Race

TIPS FOR PC

You can type and
then press “ENTER”
on your keyboard!

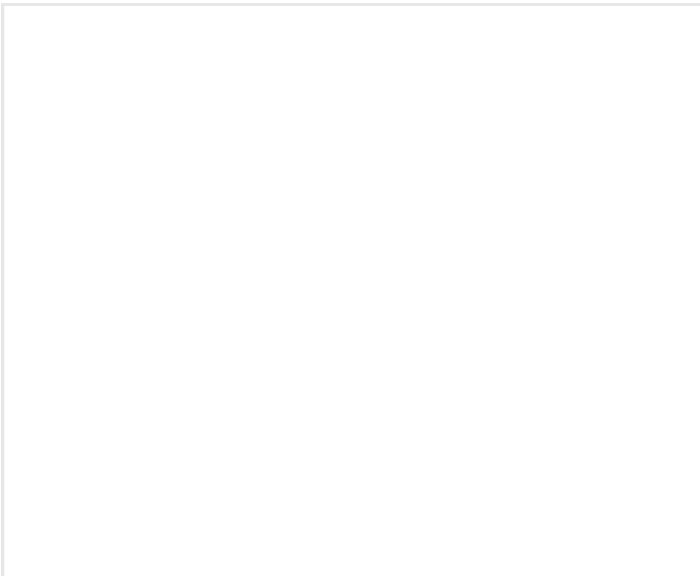

Gameplay (II) : Status Message

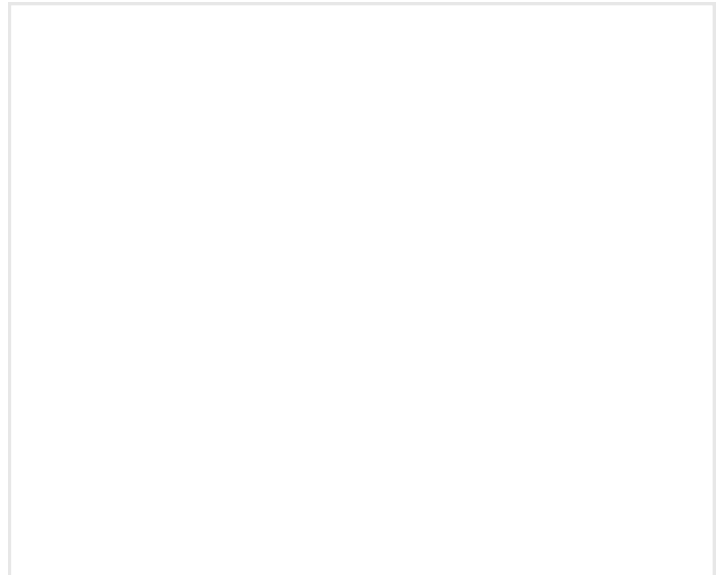

Correct Answer

Used Character

Non A-Z Character

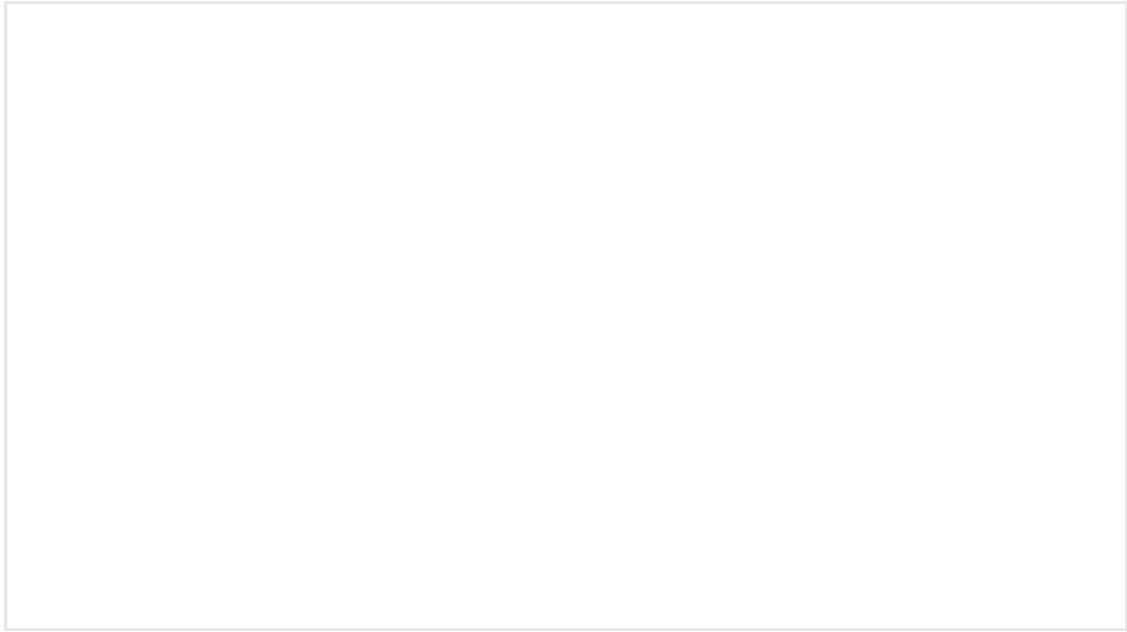

*Wrong Answer
-3 Health Points*

Finished Word

Gameplay (III) : Progress Bar

Currently on word no?

Player name

Your current health

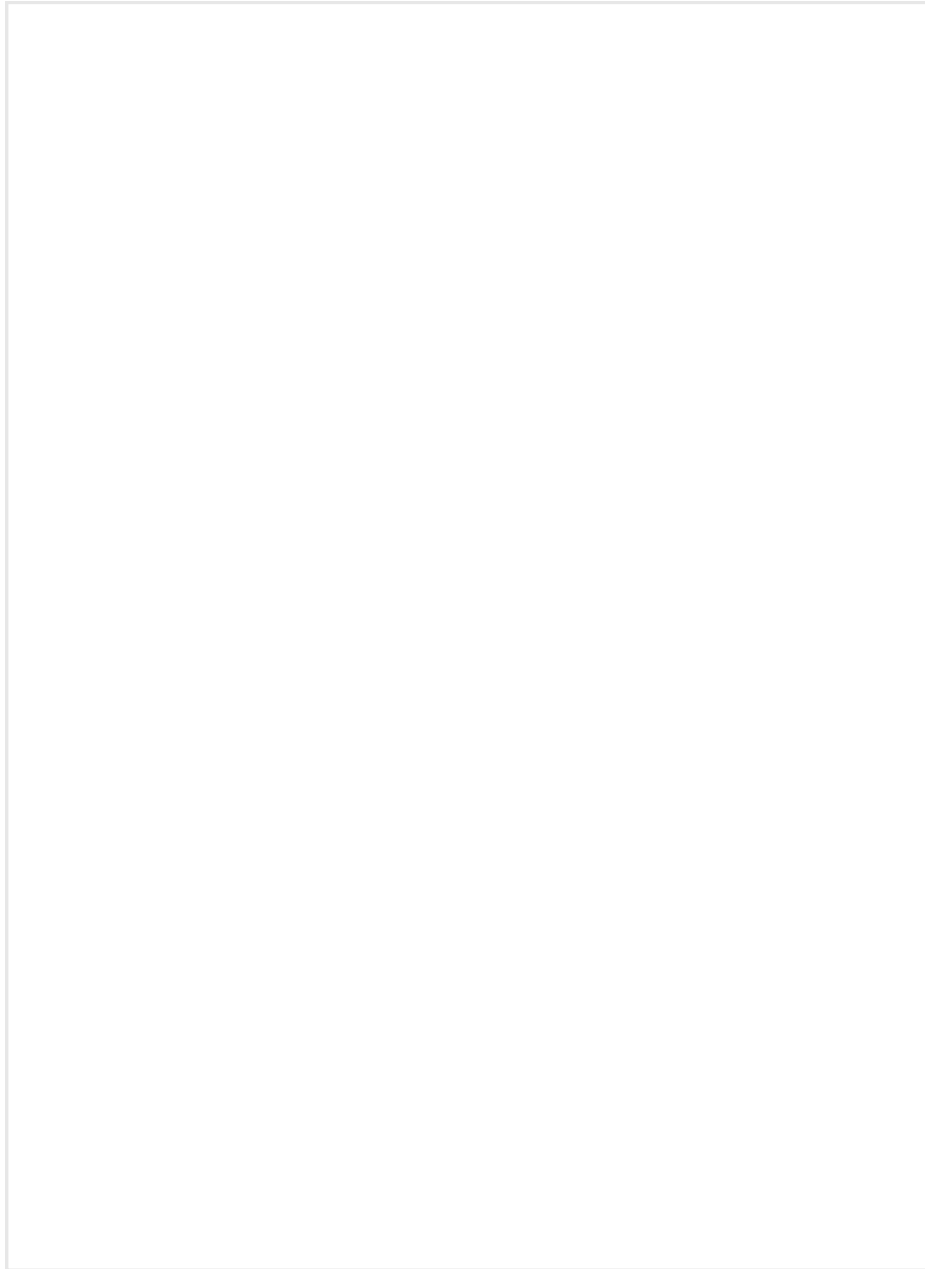

Gameplay (IV) : Game Ending

60

When one player finishes a game, a
60s countdown
will begin!

60

Gameplay (V) : Leaderboard

The sign indicates that that player is finished.

Game Rules

1. You have 100 health point, decrement by 3.
2. If health point = 0, you will die.
3. If someone finishes the game, 60-second countdown will begin.
4. A player with highest level (furthest word) wins.
5. If more than one player has the same level, the one with more health point wins.
6. If more than one player has the same lvl and more than one player has the same health point, they are tied.
